SCHOOL MEDIA SERVICES

“

I am delighted with the service provided by hi-impact. The after service has been second to none and I would highly recommend them to any school or academy trust. They are quick to respond and extremely helpful and professional.

With a history deeply ingrained in education, hi-impact is uniquely positioned as the preferred choice with whom to entrust your media services.

We understand schools - your focus, your staff and your children.

DESIGN

Our team will work with you to create striking designs for your school. Branding such as logos, website artwork, banners for the school gates to celebrate an Ofsted rating or maybe you want to digitise your children's artwork for large print displays - hi-impact has experience and creativity that will help you.

VIDEO

Video is crucial in promoting your school, whether it be on your website or via social media. Parents, inspectors and other visitors will be drawn to video content ahead of text, and hi-impact's skilled filmmakers can create promotional videos that give the online visitor a true perception of the ethos of your school.

As well as whole school promos, we can help you demonstrate programmes unique to your school. Perhaps you want to shout about the great work you do with mental health and wellbeing or an investment in new equipment - hi-impact can help you reach your target audience in a visually engaging way.

3D VIRTUAL TOURS

Using state of the art infrared 3D scanning technology, hi-impact can create a 3D model of your school that can be used as a virtual tour to promote your fantastic facilities. This will save time in showing prospective parents around, help induct new children and impress visitors or inspectors ahead of their arrival.

Interactive tags can be positioned within tours to allow you to link to your website to give more information about your school.
